HACKATHON

"Kavach" Hackathon Jun 2023
Ministry of Home Affairs and Ministry of Education of India
• Participated in the "Kavach" hackathon organized by the Ministry of Home Affairs of India. Our team secured the runner-up position, showcasing our innovative solutions to critical national security challenges.

INTERNSHIPS

Software Developer Mar 2023 – May 2023
Ansh Infotech *Ludhiana, Punjab*
• During my internship at Ansh Infotech, I had the invaluable opportunity to immerse myself in the world of full-stack development while working on a live e-commerce project. My primary focus was on leveraging the MERN stack to contribute to the development and enhancement of the e-commerce site.

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, HTML, CSS, C++,Python

Frameworks: React, Node.js, Bootstrap, Express.js

Databases: MongoDB, MySQL

Designing Tools: Figma, Canva

PROJECTS

E-Commerce Website
React, Node.js, MongoDB
• The primary goal of this project was to craft an e-commerce platform that merges aesthetic design with robust functionality, ensuring a pleasant and efficient shopping experience for users.

User Tracking and Monitoring Website
MERN Stack
• The primary goal of this project is to track police officers using their mobile phone GPS and ensure that they are available at their duty place during duty hours.

Blood Source Navigator
MERN Stack
• The primary goal of this project is to assist hospitals in finding the right donor based on the nearest location, ensuring timely blood supply to save patients' lives.
